

# ESCAPE guidelines

## How to stay safe online

As a general guide to all our theatre in education work we ask that:

- The performance and the workshop take place in the same space.
- Classrooms are not used as the performance space (due to the space required).
- Venues are accessible from ground level - for ease of access with our equipment.

Detailed information for *Escape* production:

- The actors also need an aisle around the outside of the audience to run around.
- Generally best if performed on the floor, even if a raised platform is available.
